

UWS in Myanmar

UWS has been operating in Myanmar since 2013, and since 2014 we have been building and supporting community schools in the **Shan State.** The country has recently suffered widespread political repression, ethnic conflict, and remains one of the world's poorest countries. In total we have 12 schools active in Myanmar, with further schools in development for 2017. Please find below a selection of photographs from our UWS Myanmar Team.
